

## HITLAHAVUT PROGRAM STUDENT APPLICATION

Ramaz has created the *Hitlahavut* Program to recognize the varied and special talents and passions of our students. Membership in the program provides students who demonstrate distinction in a specific area with a four-year mentorship program and includes a merit scholarship of \$7500 per year.

In order to help us identify eligible students for the *Hitlahavut* Program, we invite students to write a short essay describing their interest, why it is important to them, and how they have dedicated themselves to this pursuit in the past. If the student has received any awards, citations or commendations in connection with his/her interest, please be sure to mention that in the essay. Please feel free to submit any work samples, such as artwork, essays or stories, films, or recordings that you think would enhance your child's application.

**Student Comments:** Please send a Word document to [admissions@ramaz.org](mailto:admissions@ramaz.org) or attach a separate page describing your interest and the ways in which you have dedicated yourself to this passion.
