After School Clubs Brochure

ECC and Lower School
Spring Semester 2022

We are pleased to be sending out the Spring club schedule for Ramaz clubs as well as outside vendors.

Spring clubs begin on Monday, March 21st and end on Thursday, June 9th.

Due to the current restrictions, all afterschool programs will be held from 3:30-4:30 PM in the Lower school building. Masks must be worn at all times.

Please note the following club times:

- Pre K and K Ramaz clubs: 3:15 - 4:15 PM, unless otherwise indicated
- 1st-4th grade clubs: 3:30 - 4:30 PM, unless otherwise indicated
- Registration for Ramaz clubs goes live on Wednesday February 23rd at 9:00 PM
- Registration for Ramaz clubs will close on Wednesday March 2nd at 11:00 PM
- Ramaz Clubs cancelation policy: please note that after two weeks parents can cancel Ramaz clubs for a full refund. Once a child has attended the club three times, refunds will not be permitted.
- PLEASE REVIEW PAGE 44 with your child for our behavioral expectations during club.

Registration for vendor clubs is now open.

To register for an outside vendor club, please contact the vendor directly using the information in this booklet.

For any questions, please email afterschoolclubs@ramaz.org

The Coding Space

The Coding Space is an after-school and summer program where students learn to tackle challenges independently through learning to code. Students will learn to code in Scratch or JavaScript, participate in hands-on STEM-based activities that encourage social interaction and critical and creative thinking, and receive personalized attention through our 4:1 student to teacher ratio.

Core Dance is a Hip-Hop Dance program that supports children's development through creative movement. Core Dance engages each child in expressing themselves through rhythm and dance. With its unique child-centered approach, students will learn how to create and implement choreography that brings out their individual style. At Core Dance we value what each child has to offer, during each class students will be given the opportunity to teach their own choreography to the class. Together, we will create an amazing dance routine to perform at the end of the semester for family and friends.

Global Art Adventures!

Claire's
Creative Adventures
... for kids!

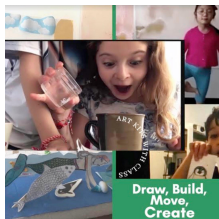

Children are introduced to **diverse cultures**, their **species**, **landscapes** as well as **modern and contemporary artists**, using a **wide variety of media & techniques** including: paint, clay, charcoal, pastels, wood, plaster, papier-mâché, 3D dioramas, wire, fabric, recyclables and more!

Myriad museums and galleries of NYC provide us with ample ideas from which to create, keeping our curriculum current with the art world of today.

Children become master of their worlds through:

- Inspiring art processes to tantalize and engage every skill level
- Storytelling & Imaginary Travel
- Drawing, Painting & 3D Scene-Building & Mixed Media
- French & Spanish practice
- Experiments
- Students take a field trip to a local Gallery or Museum
- [Virtual Adventures](#) are included (*so we never miss a class!*)

The Craft Studio Art Class!

Kids thrive in our after-school classes! All the magic that The Craft Studio has to offer easily transported into your school, working in conjunction with your schools enrichment program!

Each week has a different lesson and focus' on techniques, anywhere from negative space, to pointillism, to textures like fork and fluffy painting, including clay work, collaging, painting, and more! Our programming is about the artistic experience and kids will focus on developing their creativity by learning techniques that not only apply to the project but that they will be able to practice their own with their newly developed skills!

Everyone is Going Gaga for GAGA!

Gaga is a fast-paced, high-energy sport played in an octagonal pit. The more kids, the better! Played with a soft foam ball, this game combines the skills of dodging, striking, running, and jumping, while trying to hit opponents with a ball below the knees. Players need to keep moving to avoid getting hit by the ball. Fun and easy, all children get a serious workout. Everyone has fun playing **GAGA** with **THE GAGA CENTER!**

Click the link below the grade you wish to register for.

Junior Legos (for grades K through 2)

With a focus on engineering, we'll help students explore science and math fundamentals through LEGO! Living in New York City, we experience some of the world's most innovative architecture just on our way to school. What better way to educate and excite our kids than by celebrating these famous buildings and their creators while fostering STEM & creative thinking skills. Join us each week as students have a blast building, testing, and exploring the world with lego!

Earth Science (for grades K through 1)

This semester let's explore the only home we've ever known, Earth! Through the foundations of biology, zoology, geology, oceanography and more, we'll learn all about how our planet works and the things that live here with us. We'll cover everything from bumblebees to blue whales, volcanoes to vortexes. If your little one is curious about anything in the world, this is the class for them.

Hip Hop Dance

[Click here to register](#)

Children will explore musicality and the latest dance moves in this fun-filled, high-energy class. We'll groove through a group warm up, in "follow along" dances, and build a repertoire of classic hip-hop moves such as breaking, popping and locking. Developmental skill-building will help refine gross motor coordination and control. Children will build confidence and expand their appreciation of music through the universal language of dance.

Harry Potter Club (For grades 2 through 4)

Calling all aspiring witches and wizards! Join us for this immersive class inspired by Harry's wonderful wizarding world. Each week, students study a different Hogwarts subject and complete a magical project like learning spells, owl making, and more! Weaving improv and theatre games together with arts and crafts, students use their imaginations and creativity to bring the magical series to life. By the end of the session, students will band together to solve a mystery and defeat a dark wizard using all that Harry Potter has taught them!

Using paper, pen, and coloring materials, we will create an exciting story in the form of a comic book. Kids will learn how to craft an action-packed plot and all about the tricks and tropes used in many of their favorite tales. As the stories about "good guys" and "bad guys" unfolds, kids will observe the ways a person's choices affect other people and situations in imagined scenarios. This exploration of creative writing, linear storytelling, and artistic expression will help kids find their inner hero, who can see the good in everyone!

Calling all mini thespians! Join us for an interactive & immersive theatrical experience! This weekly theater class offers kiddos the chance to explore the fundamentals of stage production - from terminology to technique - in a fun & approachable way. We'll touch on aspects of performance & stage presence, writing and storytelling, costume concepts and more! Whether you have a theater-lover at home or are simply seeking a new avenue for your child to practice literacy, critical thinking and creative exploration, this class is a crowd pleaser!

KARATE

WHITE CRANE MARTIAL ARTS

Through the use of Karate your children will improve their physical coordination, self-control, concentration and confidence.

Self-defense techniques, inspirational Karate stories, Martial Arts games and meditation are part of this great class that is designed to teach each child in a manner appropriate for their grade level.

Classes are taught by Sensei Eddie Kelen, a 4th degree black belt.

At the end of this semester children will receive their new level belts!

Super Soccer Stars

Super Soccer Stars teaches the fundamentals in a fun, non-competitive, educational environment. Our unique curriculum uses positive reinforcement and a low child-to-coach ratio to make sure each child feels confident in their own abilities, allowing kids to improve at their own pace.

No matter their age, Super Soccer Stars has specific and progressive lesson plans built to your child's developmental needs. Many of our program ages overlap so that you and your child can be comfortable with the level of play during your session.

Tri-State Chess is delighted to continue to offer our exciting after-school **chess program** for **Ramaz** students. Students will learn chess notation, opening strategies and formations as well as different traps and checkmate patterns.

The instructors for this program are from **Tri-State Chess**, the organization which has been running the **Ramaz** afterschool program for the past 30 years! **Tri-State Chess** has been developing chess teams through teaching after-school programs at: **Manhattan Day School**, **Lycee Francais de New York** and **Marymount School**, to name a few.

Trophies will be awarded to all students at the end of the semester.

Program Founder & Director and U.S. National Master Mark Kurtzman will once again teach classes in the after school program at Ramaz! The organization has been working in cooperation with **The Board of Jewish Education Department of Yeshivot and Day Schools**, to bring you the **C.I.T.Y.** program: **Chess In The Yeshivot**.

Registration/Payment online at:

UMAMI!

Cooking All Six Flavors Using All Six Senses

There is a 6th flavor (beyond the traditional 5) that adds a certain depth and hard-to-describe-satisfying taste to a dish. The Japanese call this “umami”. It involves cooking with all the senses: taste, sight, smell, touch, hearing, taste and the sixth, intuitive sense. Each week we’ll cook a seasonal dish that has umami (super deliciousness). Each student makes their own apron and a personalized cookbook.

Lower school chorus is a time for students to enjoy ensemble singing and gain confidence in vocal performance as they perform throughout the year. Their choral repertoire includes English, Secular, Hebrew and Jewish music. They sing canons and learn to sing in two and three-part harmony. This is a fun opportunity for the children to fine tune their vocal skills and sing with fellow students. We hope that your children will join the Lower School Chorus - the more the merrier!

Interested in computers and programming? Working with different coding programs, robots, and equipment, students will expand upon their knowledge of coding and will learn to write their own lines of code through mastering the basics of programming language. Students will be able to code both plugged (computers/iPads) and unplugged (using robots/art).

Homework club is an opportunity for children to work on their homework in a supervised and social setting. One English teacher and one Hebrew teacher are available to assist the students with questions they may have and do their best to ensure that each child is utilizing their time productively by focusing on their homework. While some students may be able to complete all of their written homework during this time (supervised reading must be done at home with an adult), it is highly dependent on the individual child. Parents are reminded to confirm with their child at home whether all homework has been completed.

Sewing Club

Sewing is an art medium through which young children can learn to express themselves. In Sewing for Kids, children will learn to control yarn and how to creatively use it to express themselves. Children will develop coordination, thinking, and math skills. The activities will include stringing beads, sewing placemats, sewing shapes, and sewing on burlap.

Ramaz Behavioral Expectation

RMZ

Act Respectfully

- Follow instructor's directions
- Only use club materials
- Use kind language
- Treat others as you want to be treated
- Be mindful of our boundaries or space bubbles

Make Responsible Decisions

- Make good choices
- Clean up after yourself
- Respect the space. Remember you are in someone's classroom
- Talk to an adult if someone is acting inappropriately

Show Kindness

- Invite a new friend to join you during club
- Don't forget to thank your instructors
- Offer to help when a fellow student or instructor may need help
- Encourage others to participate if they need encouragement

What happens when you don't follow the rules?

We hope this doesn't happen - in the event that Intervention is needed, staff will take the following steps: 

Step 1: Reminder of our guidelines

Step 2: Reflection, student will be asked to sit on the side for 5 minutes

Step 3: Removal from club for that day and parent will be asked to pick child up early

Step 4: Removal from Club for the semester

Please note - Teacher/vendor can decide to permanently remove your child from a club if he/she is harmful or disruptive to others
